

**Description****FOR AIR CONDITIONERS**

Guarantees perfect cleaning and sanitization against the main bacteria in rooms with air conditioning. It lasts from a minimum of 10 up to 45 days. Particularly useful for civil use.

**Details****Product specifications****INFO**

SAFE

Cleaning &amp; Hygiene against bacteria

PRACTICAL

Does not foam and enables the system to be switched on immediately.

ECONOMIC

Does not require the intervention of specialist operators

**Physical-Chemical Properties**

Colour and Appearance

**Product in its liquid state**

Colourless liquid

Specific weight

0.60 kg/l

Fragrance

Characteristic

**Recommended use**

Contains active sanitization ingredients in a solution of alcohol and balsamic compounds that comply with the legislation in force. Guarantees perfect sanitization against the main bacteria in rooms with air conditioning. It also acts as an air deodorant and refresher.

**FOR VEHICLES**

Completely insert the nozzle into every ventilation outlet with the system switched off. Spray the product as you slowly extract the nozzle, so the entire duct is treated. The special nozzle dispenses the product on all sides simultaneously. You can switch on the air conditioning after 5 minutes. Ventilate the room for a few minutes.

**FOR CIVIL AIR CONDITIONERS**

Open the internal equipment; dispense (without nozzle) a fair amount of F20 on to the filters from a distance of approximately 20cm. Wait 5 minutes before switching on the system. Ensure the room is ventilated for a few minutes.

**Packaging available**

400ml Spray
